✉ abdullazizsayafi@gmail.com ☎ 0536221754 📍 Dhahran, Saudi Arabia

## SUMMARY

KFUPM Computer Engineering graduate (2025) with experience building and shipping AI-powered products. Founded A&n SaaS, developing a Dental CRM sold to local clinics and an AI Finance agent. Led embedded systems for a hydrogen fuel-cell drone that won 1st place at KFUPM's Design EXPO 2025. Skilled in Python, C/C++, ML, and full-stack development. Bilingual in Arabic and English.

## EDUCATION

**Bachelor of Science in Computer Engineering**  
*King Fahd University of Petroleum and Minerals*

09/2019 – 12/2025

## SKILLS

**Embedded Systems**  
Intermediate

**Microsoft Office (Excel, Word, PowerPoint)**  
Advanced

**Data Analysis**  
Intermediate

**Python Programming**  
Intermediate

**Network Security**  
Intermediate

**C programming**  
Intermediate

**AI Modeling**  
Advanced

## CERTIFICATES

**NVIDIA Generative AI with Diffusion Models**

- Tuwaiq Academy
- 04/2026 - Present

**Data Analysis & Storytelling training**

- STC
- 02/2026 - Present

**Aramco Summer English Course**  
Aramco

**KFUPM Design EXPO Winner 2025**  
KFUPM

## LANGUAGES

**English**  
Fluent

**Arabic**  
Native

## PROJECTS EXPERIENCE

### I-TAC Group (Summer Internship)

06/2025 – 08/2025

*Computer Engineering Intern*

- Supported technical documentation and coordination
- Gained exposure to engineering workflows

### Autonomous Vehicle System

01/2025 – 05/2025

*AI Engineer*

- Designed system logic for obstacle avoidance
- Documented system performance and testing results

### Fuel-Cell Powered Fixed-Wing Drone

09/2024 – 05/2025

*Computer Engineer*

- Designed and built hydrogen fuel-cell UAV
- Optimized power system for improved endurance
- Worked in multidisciplinary engineering team

### A&n SaaS Company

01/2026 – Present

*Founder*

- Developed autonomous drone delivery system using C++
- Integrated system components and optimized performance
- Addressed environmental constraints
